Education

Reva University, Bengaluru **Expected 2029**
B.Tech in CSE (Artificial Intelligence & Machine Learning) *CGPA: 8.62/10*

Primus Public School, Bengaluru **Mar 2024 – 2025**
Class XII (Physics, Chemistry, Mathematics and Computer Science) *Percentage: 90%*

Projects

VoxHire — AI Voice Interviewer **Live demo | Source code**
JavaScript, Node.js, AssemblyAI Voice Agent API, Render *lablab.ai Hackathon, Sep 2026*

- Built and deployed an AI voice agent that conducts adaptive technical interviews in real time, speaking with candidates directly in the browser
- Implemented intelligent follow-up questioning that adapts to each answer, evaluates candidate responses, and generates a personalised performance report to reduce manual screening effort
- Built and submitted for the AssemblyAI Voice Agent Hackathon (lablab.ai), earning a Certificate of Completion
- Defined agents as JSON configurations and shipped the complete application to a public, ready-to-use link on Render

Telecom Customer Churn Prediction **Source code**
Python, Scikit-learn, Optuna, Streamlit

- Built a churn classifier with automated hyperparameter tuning using Optuna and SMOTE to correct class imbalance
- Developed an interactive Streamlit interface for live churn predictions from customer details

House Price Prediction (Kaggle) **Source code**
Python, Gradient Boosting, Pandas

- Developed an end-to-end regression pipeline for the Kaggle House Prices competition using Gradient Boosting, covering preprocessing, feature engineering and evaluation

Titanic Survival Prediction **Source code**
Python, Scikit-learn

- Built an end-to-end ML project with feature engineering, model comparison, hyperparameter tuning and cross-validation to predict passenger survival

Technical Skills

AI & Machine Learning: Scikit-learn, Optuna, Voice/LLM Agent APIs, Feature Engineering
Data Science: NumPy, Pandas, Matplotlib, Plotly
Web & Systems: Node.js, HTML, CSS, Streamlit, Supabase, Arduino
Tools & Deployment: Git, GitHub, Render
Programming Languages: Python, C, C++, JavaScript, SQL

Certificates

Python for Data Science IBM, Apr 2026
Data Analysis Using Python IBM, Apr 2026
Data Visualization Using Python IBM, Apr 2026
Claude Code 101 Anthropic, Apr 2026
AI Fluency: Framework & Foundations Anthropic, Mar 2026
Claude Code in Action Anthropic, Mar 2026
Claude 101 Anthropic, Mar 2026
